## Summary of Qualifications

- Experience administrating OS X Server, dozens of OS X and Windows client machines, and Linux and FreeBSD servers.
- Familiarity with existing staff, faculty, and IT staff.
- Successful development of laboratory manuals for CSCI 4100U Mobile Devices.
- Strength in analyzing, researching, organizing, and problem solving.

---

## Education

- |                         |   |
|-------------------------|---|
| 2010–2013<br>(Expected) | <b>Master of Science in Computer Science</b> , <i>University of Ontario Institute of Technology</i> , Oshawa, Ontario, Canada.              |
| 2006–2010               | <b>Bachelor of Science (Honours) in Computing Science</b> , <i>University of Ontario Institute of Technology</i> , Oshawa, Ontario, Canada. |

---

## Master Thesis

- |             |   |
|-------------|---|
| Title       | Towards a Concurrent Implementation of Keyword Search Over Relational Databases |
| Supervisor  | Dr. Ken Q. Pu   |
| Description |   |

---

## Experience

- |                              |  |
|------------------------------|--|
| 2011–Present                 | <b>Volunteer Webmaster</b> , <i>Oshawa N.A.S.C. Soccer</i> , Oshawa, Ontario, Canada.<br>Initiated a project to migrate the user-facing website from a static to dynamic, database-driven, modern web application. Utilized Python/Django, PostgreSQL, SCSS, HTML5.  |
| Summer 2009 &<br>Summer 2010 | <b>Undergraduate Summer Research Award</b> , <i>University of Ontario Institute of Technology</i> , Oshawa, Ontario, Canada.<br>Designed and developed laboratory materials for CSCI 4100U Mobile Devices. Initially targeted toward iOS, later investigated the addition of BlackBerry OS. Set up and maintained lab equipment. |
| 2007–2010                    | <b>Sole Proprietor</b> , <i>Richard Drake</i> , Oshawa, Ontario, Canada.<br>Developed several database-driven client applications used to manage a company's quality control system. Technologies used included C#/.NET, T-SQL, and Microsoft SQL Server.  |

---

## Computer Skills

System Administration	Experience administrating OS X, Linux, Windows, and FreeBSD
Programming Languages	Strong programmer in Java, Python, Ruby, Objective-C, and UNIX shell
Web Development	Several production Django and Flask applications, HTML5, JavaScript, SCSS

---

## Teaching Experience

2011–2013	<b>Mobile Devices (CSCI 4100U)</b> , <i>Laboratory Instructor</i> .
Winter 2012	<b>Introduction to Computer Science with Python (CSCI 1040U)</b> , <i>Laboratory Instructor</i> .
Winter 2011	<b>Introduction to Computer Science with C++ (CSCI 1030U)</b> , <i>Laboratory Instructor</i> .
Fall 2010	<b>Database Systems &amp; Concepts (CSCI 3030U)</b> , <i>Tutorial Instructor &amp; Grader</i> .

**Human Resources**

*University of Ontario Institute of Technology  
2000 Simcoe Street North  
Oshawa, Ontario, Canada  
L1H 7K4*

**RE: Faculty of Science - Computing Laboratory Technician - UOIT 13-390**

To Whom It May Concern,

I am responding to your external job posting for the position of Computing Laboratory Technician in the Faculty of Science (competition **UOIT 13-390**).

I am a motivated, driven, and responsible individual who is excited about new technology and always trying out new technologies. I am intimately familiar with the existing computer science curriculum at UOIT, having both graduated from the Computing Science program as well as having held numerous Teaching Assistant placements. During these placements I volunteered to assist in setting up lab resources; I also maintained server updates, user accounts, etc.

I would appreciate an opportunity to further discuss my qualifications at your earliest convenience. You may reach me via email at richard.drake@uoit.ca, or by phone at 905.442.3152. Thank you for your time.

Sincerely,

*Richard Drake*
